

TEOMA GROUP

CAPABILITY STATEMENT

EXPERIENCE EXCELLENCE WITH TEOMA ELECTRICAL

Teoma Group is a highly experienced electrical contracting company servicing industrial and commercial clients throughout Melbourne for the past 24 years.

We have gained an enviable reputation for reliability, quality of workmanship and being known for completing complex electrical and mechanical projects in industrial, commercial and service and maintenance applications.

Over the years the demand for specialised services has increased substantially and our proven experience and expertise in commercial and industrial electrical applications enables us to meet the changing requirements of our clients. Our team brings a high level of capability to each project.

We have a collaborative approach in working with our clients to find the best solution to ensure all works are completed to specification and in a safe, timely and cost-efficient manner. With dedicated in-house design and engineering capability, our experienced team is able to solve the toughest problems.

Our proven operating systems, a solid management structure and an experienced team of electricians and electrical engineers who are qualified CMSE® - Certified Machinery Safety Experts position us to provide a comprehensive service to our industrial and commercial clients.

COMMERCIAL DIVISION

Teoma Group has extensive and proven experience in designing and installing projects for a broad range of industries and businesses across Victoria.

We work closely with our clients to achieve the best outcome. Working across large-scale sporting grounds, Government contracts, schools, retail, and construction sites, our highly specialised team works closely with our customers, to achieve the best possible outcomes.

From project inception to completion, we meticulously coordinate every aspect, ensuring timely and high-quality work while minimising disruptions to the operating environment. With a diverse client base that includes local councils and businesses across the state, we have the expertise and experience to consistently deliver results that meet expectations.

INDUSTRIAL DIVISION

With a dedicated internal team of engineers and highly experienced industrial electricians, we can assist our clients with all industrial electrical solutions. Teoma Industrial understands the challenges faced by the industry and is there to support you with all projects and ongoing maintenance.

We specialise in providing effective solutions for new and existing complex automation and control systems and understand how costly and disruptive an equipment breakdown can be to production and delivery schedules.

IN HOUSE ENGINEERING TEAM

Over the years the demand for specialised services has increased substantially and our proven experience and expertise in automation and robotics enables us to meet the changing requirements of our clients.

Our experienced team of electricians and electrical engineers are qualified CMSE® - Certified Machinery Safety Experts position us to provide a comprehensive service to our industrial and commercial clients.

CIVIL DIVISION

Teoma Group is a cutting-edge civil electrical contractor that provides innovative solutions for initial earth preparation, earthmoving and electrical service installation. We offer a comprehensive range of services to clients in the commercial, industrial, and rail industries, and can handle projects of any size and complexity.

Our specialist team of VEDN (Vesi) Accredited operators perform horizontal directional drilling and boring over long distances and install various types of pipes and conduit. This includes single and multiple electrical and communications conduits, poly and steel gas mains, poly, copper and PVC water and sewer pipes and stormwater.

We have extensive experience in laying underground infrastructure for new commercial, and industrial developments, Government, and modular builders. This includes power supply and communications conduit.

MODULAR DIVISION

At Teoma Electrical we pride ourselves on our ability to provide solutions to our customers. A major component of our success has been our work with Modular builders, where we provide our clients with a one-stop-shop that they can come to for all facets of their required work.

Our team have worked on major contracts for the Australian Government including an array of schools across Victoria, DHHS Department of Health and Human Services housing and the Centre for National Resilience.

MECHANICAL DIVISION

Our in-house team provides extensive mechanical engineering and fabrication solutions to a broad range of commercial and industrial clients throughout Australia. This extends to the manufacturing and recycling industries with new production plants and equipment and refurbishment and maintenance of existing plants.

Teoma designs turnkey solutions that are tailored to our client's requirements and perform installations, ongoing maintenance, upgrades and repairs for a wide variety of industries. Teoma are often required to provide a complete project management service to ensure a seamless outcome for our clients with minimal disruption.

AIR CONDITIONING DIVISION

Teoma Group are a team of highly experienced Air Conditioning, Refrigeration and Gas Technicians, Mechanical Plumbers and Commercial Electricians. Our team have the capability to service all of your air conditioning and HVAC needs. We can assist with installation, repairs and regular maintenance of all commercial air conditioning and HVAC systems.

SERVICE & MAINTENANCE DIVISION

At Teoma Group, we understand the importance of preventative maintenance programs to keep your business running without interruption. We offer customised maintenance programs that cater to the unique requirements of our clients, ensuring that their facilities are maintained in top working conditions

OUR CLIENTS
